The Cotswold Hill Parcels are five separate surveyed house sites located off West Hill Road in Jamaica, VT. These high elevation properties have some views toward Bromley Mountain to the west and toward Magic Mountain to the east. The views from these sites could be expanded with some tree thinning. Four of the five parcels have frontage on the newly constructed 20 foot wide access road that winds its way up the hill toward Lot 5 at the top of the subdivision. Lot 1 can be accessed directly from West Hill Road.

LOCATION

The bottom of the access road seen from a drone, with Lots 2, 3, and 4 visible on the right.

These properties are close to three ski areas: Stratton Mountain is 7 miles away, Magic Mountain is 11 miles northeast, and Bromley Mountain is 14 miles to the west. It's only a 30-minute drive to the town of Manchester, where many shops and restaurants can be found. The West River is located nearby and provides a great place for fishing, swimming, and paddling. Opportunities to hike in the Green Mountain National Forest or mountain bike on trails and dirt roads are all found in the area. The properties are only two and a half hours from the Boston area, New York City is four hours south, and Hartford, CT is only two hours away.

ACCESS

The access road near the bottom of the subdivision, with Lot 2 on the left and Lot 5 on the right.

The Cotswold Hill Parcels are located at 3104 West Hill Road in Jamaica, Vermont. From Route 30 in Jamaica, turn onto Mountain Acres Road and drive for one mile. Turn right onto West Hill Road and drive for 1/4 of a mile to the access road.

LOT 1 - 10.25 ACRES

An aerial view showing Lot 1 at the bottom of the photo, with Shatterack Mountain in the distance.

Lot 1 is 10.25 acres and is accessed directly from West Hill Road, where a driveway could be installed. There is electricity available on the road frontage. Due to recent logging activity, higher on the parcel, there is another level area that could also be used as a home site after clearing and establishing a longer driveway from West Hill Road. The best way to walk to the upper clearing is from the northern boundary, where there is an old skid trail. This location provides easy access and nice views of Shatterack Mountain to the east. The views on this parcel could be opened up with some tree thinning on the road frontage.

Level land near the frontage on West Hill Road.

A home could be built on this level ground.

LOT 2 - 15.27 ACRES

New road with Lot 2 on the left side. There are a couple of woods roads leading from the access road.

Lot 2 is the first parcel found on the left side of the newly built 20-foot-wide road. The land is slightly sloped to level, and there are two woods roads that lead into the parcel's interior from the recently built gravel driveway. One of these roads could be made into a driveway, and a homesite could be established in the forest. You could also build closer to the access road, where there are good views of the mountains to the northwest. From one of the woods roads, you can see the back side of Glebe Mountain, which is more commonly known as Magic Mountain Ski Area. With some tree thinning, you could open up a larger viewshed to the east.

Lot 2 is seen on the left of the access road.

A short driveway leads to an established woods road.

LOT 3 - 34.53 ACRES

The view from the short access drive on Lot 3.

Lot 3 is 34.53 acres and is mostly forested near the access road. A longer driveway would need to be built to get into the interior of the forest. There is long frontage along West Hill Road, and it might be possible to build a driveway from that side of the parcel with access directly from West Hill Road. Alternatively, a house could be built closer to the access road where there are some nice views of the mountains to the north and west. The views from the West Hill Road side of this lot would be to the east, and those views could be made better with tree clearing.

Eastern mountain views seen through the trees.

LOT 4 - 68.89 ACRES

Lot 4 has a short driveway leading to a woods road accessed from the main road leading to two clearings.

Lot 4 is 68.89 acres and is the largest of the five parcels for sale. This lot has a short driveway that connects to a woods road leading from the main access road into the property's interior. Immediately next to the road is the first clearing where a house could be built. This is a level spot, and by removing some of the trees near the road, views of the mountains would be seen. Continuing up the road, there is another large clearing. This site would have great views, possibly in two directions, once some tree clearing has been done. As with the rest of the parcels, this land is not in Current Use, so there are no restrictions on where you can build or which trees can be cut.

Views of Bromley Mountain seen from the woods road.

LOT 5 - 51.93 ACRES

The top of the driveway on Lot 5 with Stratton Mountain in the background.

Lot 5 is 51.93 acres and is located at the top of the subdivision. This parcel is very unique, and rarely do pieces of land like this come onto the market. Lot 5 has a private driveway that begins at Lot 4, and has been recently cleared to provide a flat open area to build a home on. The parcel encompasses the entire north side of the subdivision, from the bottom of the hill all the way up the access road. The views from the clearing at the top of the driveway are to the west toward Bromley Mountain, but there are also big views in the other direction, looking southeast. There would be several spots to build on this parcel, but the top of the hill seems like the place to be, with the ability to have unobstructed views from your new home.

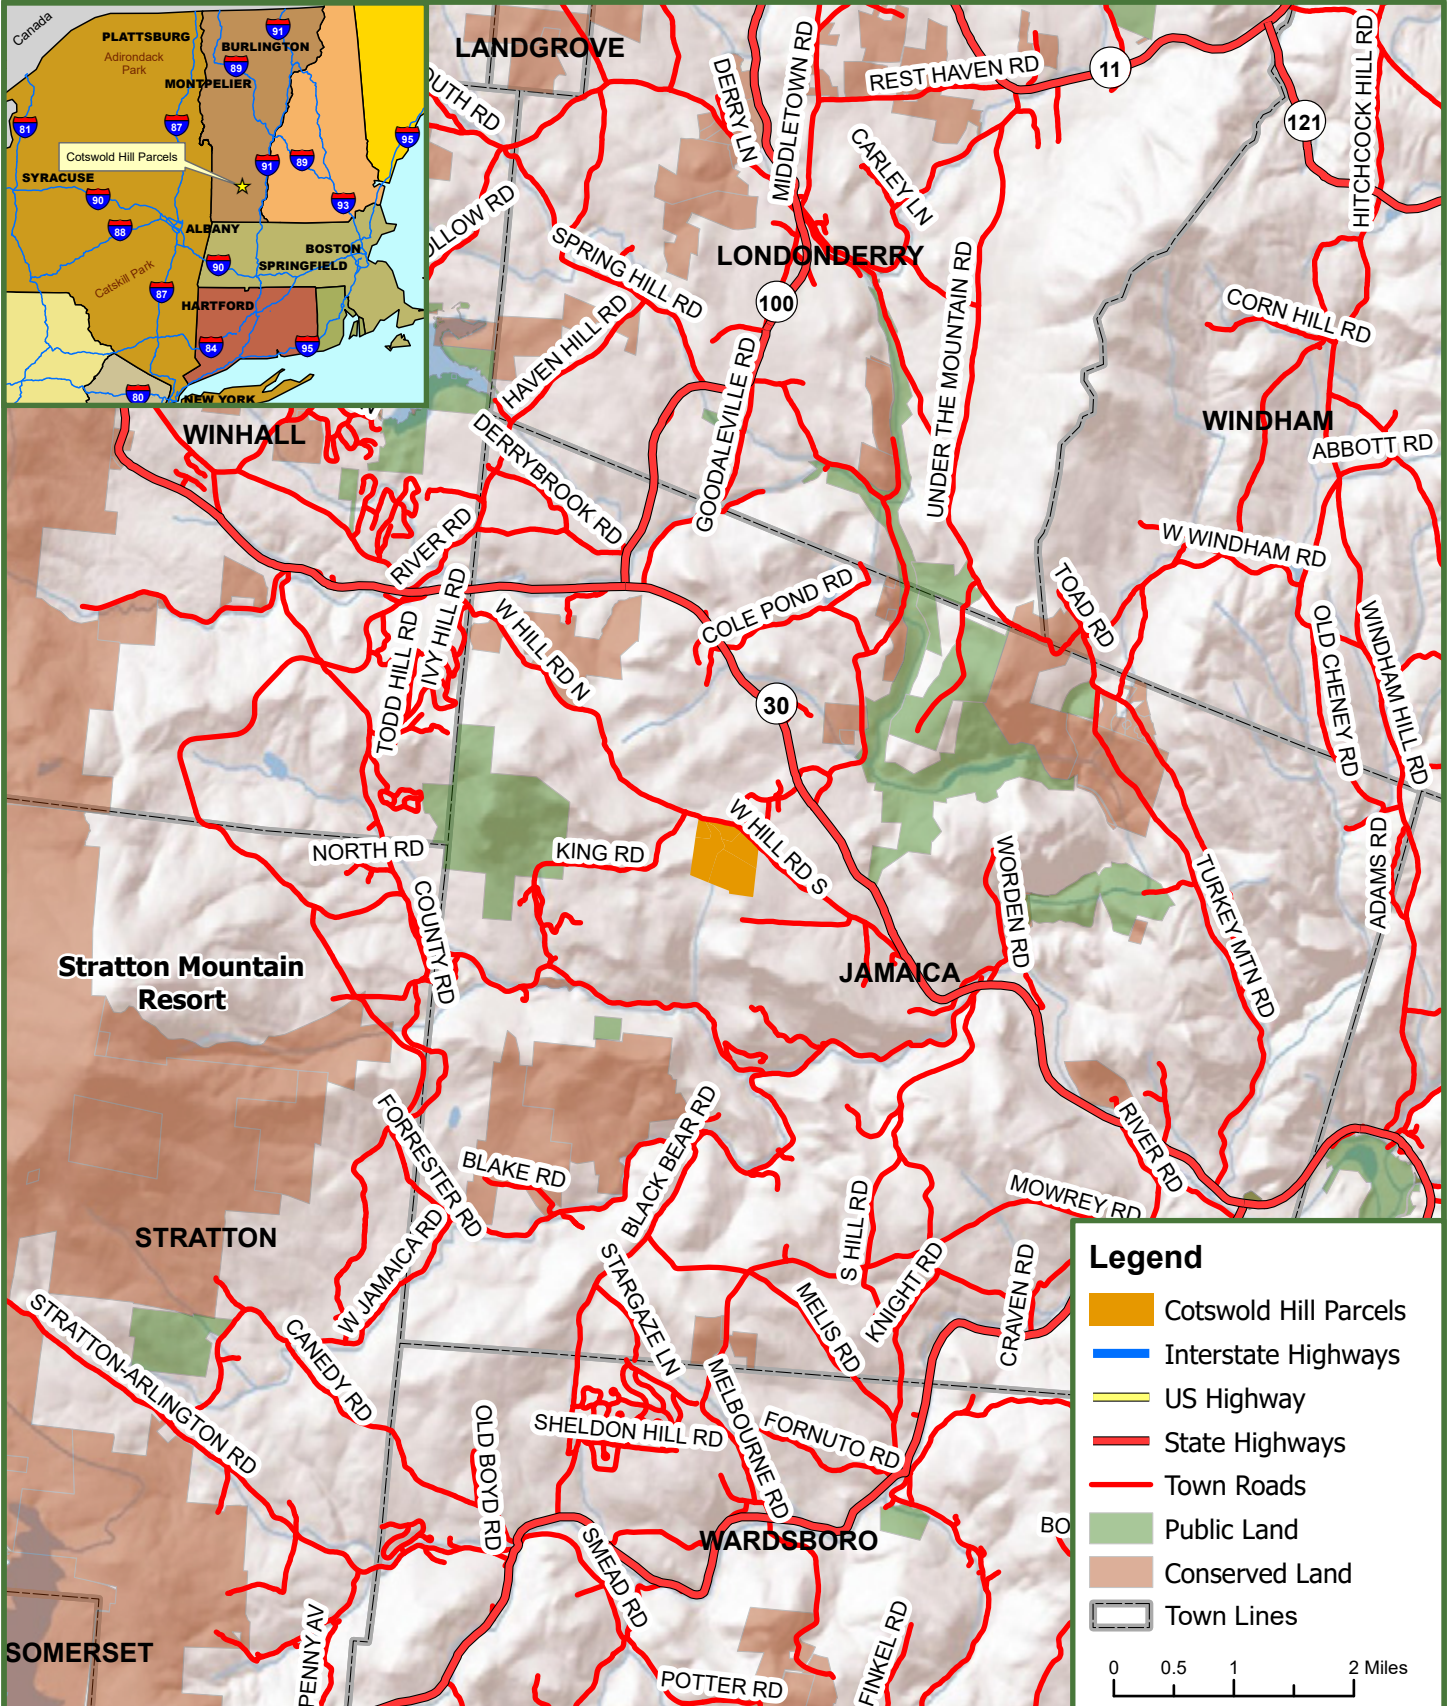

Lot 5 features extensive views with options for house sites depending on how close to the edge of the hill you'd like to be.
